

# PULP & PAPER

**BactaServe®**  
Bioculture

Eco-friendly Bacteria ISO 9001:2015 Certified

Proud Recipient-Aqua Foundation Excellence Award 2017

## PULP & PAPER

- ✓ BactaServe Pulp & Paper is a blend of selected microorganisms for use in biological wastewater treatment plants receiving aqueous wastes from pulp and paper making operations
- ✓ Bacta Cult-Pulp & Paper contains a combination of aerobic and facultative anaerobic microorganisms selected from nature for their abilities to break down a broad range of substances encountered in the pulp and paper making waste. These include lignin, cellulose, sizing, surfactants, fibrous solids and other wastes. When used on a regular maintenance schedule, this combination of microbes can improve overall system performance and reduce operating costs

## HOW TO DOSE:

- ✓ Mix 1Kg BactaServe in 20 Litres feed water (2Kg in 40 Litres & so on...)
- ✓ Mix it well and dose it as per detailed dosage schedule
- ✓ Qty. required per day depends on waste water volume & Organic load
