

COMPOSTING

BactaServe®
Bioculture

Eco-friendly Bacteria ISO 9001:2015 Certified
Proud Recipient-Aqua Foundation Excellence Award 2017

COMPOSTING

- ✓ Increases Beneficial Microbial activity Effectively degrades waste in less time
- ✓ Reduces Odour from the Waste Pile
- ✓ Converts Organic Waste into high quality compost that doubles up as excellent soil conditioner
- ✓ Great for flower and vegetable gardens, fortifying lawns, landscaping, mulches, and more
- ✓ Increases Soil Fertility
- ✓ Effective under most environment conditions

DOSAGE:

- ✓ Use 15-20 gm of BactaServe Compost for 10 Kg of solid biodegradable waste (the dosage may change depending upon the nature of solid waste)

APPLICATION:

- ✓ Mix the powder in required amount of water
- ✓ Stir well and apply the same to the waste pile with the help of sprayer or by uniform broadcasting on the waste
- ✓ Maintain the moisture in the pile at around 30%-50% throughout the composting process
- ✓ Completely overturn the pile as frequently as possible for better aeration
